SUMMARY

Final-year Computer Science student with experience in UX/UI Design, Product Design, Wireframing, Prototyping, and User-Centered Design. Skilled in Figma, design systems, user research, and AI-assisted design workflows. Passionate about solving customer problems through intuitive digital experiences and transforming complex requirements into simple, user-friendly solutions.

SKILLS

- **Product Design:** Product thinking, User-centered design, Wireframing, Prototyping, Design system, Responsive design, User Flow, Information architecture, Interaction design.
- **Ux Research:** User Research, Competitor Analysis, Persona Creation, User Journey Mapping, Usability, Heuristic Evaluation
- **Tools:** Figma, FigJam, Canva, ChatGPT, Gemini AI..
- **Front- end knowledge :** HTML, CSS, JavaScript, React.js, Tailwind CSS.
- **Soft Skills:** Problem Solving, Communication, Collaboration, Presentation Skills, Stakeholder Management, Critical Thinking.

PRODUCT DESIGN PROJECTS

AllAboutTravel – Travel Marketplace

Since June 2026

- Conducted competitor analysis to identify usability gaps and opportunities in travel booking platforms.
- Designed **end-to-end user flows** for travelers and service providers to simplify the booking experience
- Created **wireframes**, interactive **prototypes**, and **high-fidelity designs** in **Figma**.
- Improved information architecture to enhance discoverability and navigation across the platform.
- Integrated **AI-powered** travel recommendations to deliver personalized user experiences.
- Collaborated with development efforts to ensure accurate implementation of design solutions

Tools: Figma, FigJam, React, Tailwind CSS

T-MAN – Project Management Platform

November 2025 – January 2026

- Designed **user-centric workflows** for task creation, **project tracking**, and team collaboration.
- Created wireframes and **high-fidelity dashboard** designs focused on productivity and ease of use.
- Structured information architecture to simplify navigation and **reduce workflow complexity**.
- Developed **reusable UI** components to maintain consistency across the platform.
- Iteratively refined designs based on **user feedback** and usability considerations.
- Ensured **responsive experiences** across desktop and mobile devices.

Tools: Figma, React, Tailwind CSS

HiStudy – E-Learning Platform

March 2025 – July 2025

- Designed **personalized learning experiences** to improve student engagement and accessibility.
- Created user journeys, wireframes, and interface designs for learning and **progress-tracking workflows**.
- Designed **analytics dashboards** to help users visualize performance and learning outcomes.
- Integrated **AI-assisted learning interactions** to support students with instant guidance.

- Applied **user-centered design principles** to enhance usability and learning effectiveness.
- Developed **responsive interfaces** optimized for different screen sizes and devices.

Tools: Figma, PHP, MySQL, HTML, CSS

DESIGN EXPERIENCE

UX/UI Designer | Academic & Personal Projects

- Designed **user-centered web and mobile interfaces** using Figma, focusing on usability, accessibility, and **visual consistency**.
- Created **user flows, wireframes, interactive prototypes, and high-fidelity designs** for multiple product concepts.
- Conducted **competitor analysis and user research** to identify **pain points and improve user experiences**.
- **Applied design thinking methodologies** to transform user needs into intuitive digital solutions.
- Built and maintained reusable components and design systems to ensure **consistency across interfaces**.
- Leveraged **AI-powered tools for design exploration**, content generation, and rapid prototyping.
- **Collaborated with developers** to translate design concepts into functional and **responsive applications**.
- Iteratively **improved designs through feedback**, usability considerations, and continuous testing.
